EDUCATION

Northwestern University's School of Professional Studies January 2018 - April 2018

Coding Bootcamp - Full Stack Web Development

A 3 month accelerated full-time boot camp where I am learning to design and build full stack web applications. Skills learned consisted of HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handlebars JS, & React Js.

University of Wisconsin, Madison, Madison, WI

May 2015

Bachelor of Business Administration Degree, Finance

APPLICATIONS BUILT

Language-Learner

- I am currently working on a web application which users can utilize to study vocabulary words in order to learn new languages.
- Utilizes HTML5, CSS, Bootstrap, JavaScript, JQuery, REST APIs, Node Js, Express, MySQL.
- Collaborating with two teammates
- <https://github.com/kmatchu/Language-Learner>

SpotYourShow

- This application allows users to find upcoming concerts. First, a user authorizes access to his/her spotify account. They can then see a list of all artists they follow, and choose which artists' shows they would like to choose from. Finally, they have the option to filter shows by location and ultimately purchase tickets to those shows through Ticketmaster.
- Utilizes HTML5, CSS, JavaScript, JQuery, REST APIs.
- Collaborated with two teammates
- <https://codisteinborn.github.io/ConcertApp/>

BuzzFood

- A quiz where users can answer a series of 10 questions relating to his/her cooking abilities and habits. Based on the responses, this app will return a suggestion of what they should make for dinner.
- Utilizes HTML5, CSS, JavaScript, JQuery, Node Js, Express.
- Sole Developer
- <https://buzzfoodapp.herokuapp.com/>

WORK EXPERIENCE

U.S. Bank

10/2015 - 12/2017

Structured Finance Analyst

- Built and maintained Mortgage-Backed Security distribution models to generate reports summarizing principal and interest cash flows
- Interpreted and analyzed contract agreements to ensure accuracy of payment structures across several classes of investors
- Worked independently, as well as across many small teams, to reach monthly payment deadlines
